

Commission consultative  
des Droits de l'Homme  
du Grand-Duché de Luxembourg

Independent Commission for Human Rights of Palestine  
Dr. Ahmad Harb  
Commissioner General

Luxembourg, 8 August 2014

Dear Commissioner General,

We are following with great concern the development of the Middle East conflict and especially its breaches of international humanitarian law and human rights. We are shocked and outraged to observe that civilians, including many children, are bearing the brunt of the worsening violence.

While the Luxembourg Human Rights Commission has no mandate to speak out directly on the Middle East conflict, it is deeply concerned by the current situation. We are convinced that this confrontation cannot be resolved by armed conflict.

Chair of the Luxembourg Consultative Human Rights Commission
